

DIANELLA ELECTRICS

Established in 1969, Dianella Electrics is rapidly becoming one of Western Australia's leading commercial and industrial electrical contractors.

The family-owned business is well established in the South West of Western Australia and takes pride in its approach to providing professional electrical solutions and quality advice to clients. At Dianella Electrics, our strengths lie in our commitment to safety, building strong client relationships, and completing jobs on time and to the highest standard.

We have existing contracts with major projects, and the ability to mobilise and service electrical projects in any region in the state of Western Australia.

Our aim is to continue to expand Dianella Electrics to service all regions in Western Australia with a vision to become a contractor of choice for electrical services.

Our services

Dianella Electrics aims to consistently deliver reliable and competitive electrical services. We provide a breadth of commercial and industrial services to satisfy all electrical components of a project. In line with industry needs, we can operate 24 hours a day, seven days a week across Western Australia. We have the capability and expertise to mobilise to any site at short notice. The diversity of our services provides successful solutions for our clients' needs and ensures an innovative and integrated approach to all projects.

- C Bus Installation
- Audio Visual & M.A.T.V

Our capabilities

Experienced and qualified workforce

The diversity of our team of 20 staff ensure a specialised, tailored and experienced approach is delivered for every job. Our tradesmen are supported by a team of professional administration staff who provide knowledge and expertise across all contractual and health and safety areas. They strive for technical excellence and successful solutions that add value to client projects. We are members of the National Electrical Communications Association which provides specialist up to date support for health, safety and human resources. We also have C Bus accreditation enabling us to be a licenced C Bus installer. We have a strong commitment to training future generations to our high standard

through our apprenticeship program in which we currently employ five apprentices. We also provide onsite training for the workplace learning programs throughout numerous schools in the area.

Client focus

Our loyalty and commitment to our clients is based on the importance of value for money, ensuring our company is cost effective and time efficient. We aim not only to meet, but to exceed the expectation of our clients both in terms of budget and quality. Our repeat business and client referrals is testament to the quality of our work and professional approach which has seen us experiencing continued growth.

Working partnerships

Our clients will always see a 'one company approach' as we build loyal, solid relationships with building companies and clients. Dianella Electrics regularly acts as a third party supplier to our clients. We have also developed solid relationships with specialised service providers ensuring we provide a 'one stop shop' for all projects, enabling us to see them through from start to finish.

Our operating areas

Our primary workshop is based in Bunbury and we have serviced all regions of Western Australia for 40 years. Wherever possible, we like to create partnerships with local subcontractors or employ local tradesmen to support the communities where we operate.

Health and safety

At Dianella Electrics we are committed to providing a safe working environment for all staff, on and off site. We take health and safety seriously and encourage a proactive health and safety culture by ensuring our staff adhere to health and safety guidelines set by both our clients and the company. All staff are trained in senior first aid and there have been no LTI's recorded in the company's history. We also provide regular specialist training such as Working at Heights and Risk Assessment courses.

A proven supplier

Dianella Electrics is a long-term business with broad expertise and experience spanning more than 40 years of operation. As a family-operated company, we believe it is important to provide a professional and integrated service in order to produce quality results for clients. We continue to receive repeat business from long term clients spanning over 20 years, as well as welcoming new clients to our team. We believe this is a testament to our supply of cost effective solutions, project management and high quality workmanship.

Our experience

Some of our experience as an electrical contractor includes:

- Large extensions to the Peel TAFE Campus
- Electrical works at the Bunbury South West TAFE

- Refurbishment of Harvey Norman Bunbury complex
- Fit out to Bunbury Kmart store
- Electrical, fire, communications and voice data installation for Woodside Pluto Stage 2 at Burrup Mining Facilities, Karratha. This included the new laboratory and chem store, warehouse and office, riggers store, gatehouse, rotor store and road lighting.
- Installation works for Agnew Nickel Mine, Teutonic Bore Mine, Alcoa Pinjarra and Wagerup, and BHP Billiton Ravensthorpe.
- New Install and refit of Woolworths stores in Collie and Eaton.
- New Coles store in Pinjarra
- New installation of Dolphin Apartments and Silo Apartments, Marlston Waterfront, Bunbury
- New Target Country in Busselton
- New Action complex in Busselton
- Refurbishment of Woolworths Centrepoint, Bunbury
- New FAL store, Bunbury
- New JB HI FI store, Bunbury
- New installation of oval lighting, Leschenault Leisure Centre
- Cobblestone Car Park lighting, City of Bunbury
- New office buildings at Worsley Alumina and Telfer Gold Mine
- Alterations and additions for the control building at BP Refinery Kwinana

Our history

As a family-operated company, we pride ourselves on our history and the expertise of our people. The company was formed in 1969 in Perth by Kevin Robinson and has since been taken over by his sons, Greg and Trevor. Greg and Trevor believe the 'hands on' approach is what helps to make the company so successful. Both Trevor and Greg regularly undertake electrical work in the field to ensure all work is completed to the highest standard expected and the staff are kept updated on any changes or additional requests for the projects. Dianella Electrics is comprised of three generations as Greg's son James is currently finishing his apprenticeship. Kevin Mills is our Purchaser/Estimator and his liaison with suppliers and contractors is second to none ensuring the best possible quality, service and cost effective solutions are provided to our clients. The company operates out of Bunbury and has established a reputation for outstanding quality craftsmanship and service in the South West and surrounding areas.

"It has always been a pleasure working with Dianella Electrics. Their attention to detail, industry experience and identification of the critical issues has been mutually beneficial."

ROSS MARSHALL, MANAGER,
BGC CONSTRUCTION

"Cimeco has worked with Dianella Electrics over the past 20 years on a range of projects covering various electrical disciplines. Dianella Electrics have been cooperative, extremely professional and diligent in the way they conduct business and work hard to create strong relationships with their clients. I see our relationship with Dianella as an ongoing one and will be working with them on suitable projects in the future."

IAN BURFORD, GENERAL MANAGER – COMMERCIAL BUILDING DIVISION, CIMECO

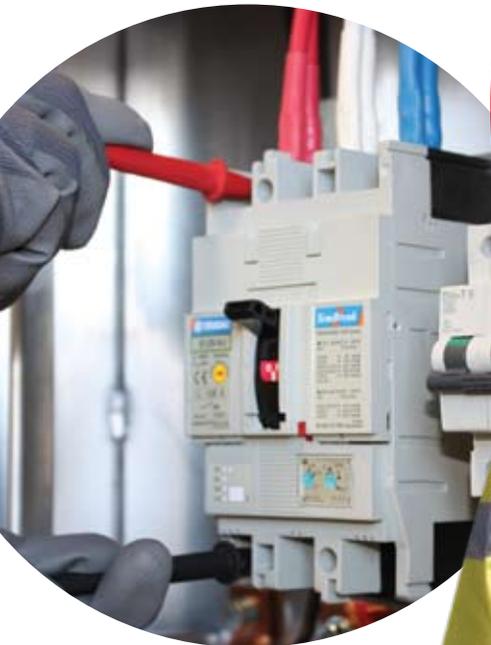

"I have found Dianella Electrics to be one of the best major suppliers I have dealt with in the South West. Dianella Electrics is very professional and the communication levels have been paramount. If you are looking for a company that still understands the meaning of partnerships, they do still get it which is very rare in the industry."

DANIEL RICHTER,
MANAGER, REXEL BUNBURY

DIANELLA ELECTRICS

Established in 1969, Dianella Electrics is rapidly becoming one of Western Australia's leading electrical contractors servicing the resources sector.

The family-owned business is well established in the South West of Western Australia and takes pride in its approach to providing professional electrical solutions and quality advice to clients. At Dianella Electrics, our strengths lie in our commitment to safety, building strong client relationships, and completing jobs on time and to the highest standard.

We have existing contracts with major resources projects, and the ability to mobilise and service resource projects in any region in the state of Western Australia. More recently, our services have extended to the state's North West mining sphere to meet growing demand for quality electrical construction and installation services.

Our aim is to grow Dianella Electrics to service all mining regions in Western Australia with a vision to become a contractor of choice for electrical services.

Our services

Dianella Electrics aims to consistently deliver reliable and competitive electrical services. We provide a breadth of services to the resources industry to satisfy all electrical components of a project. In line with industry needs, we can operate 24 hours a day, seven days a week across Western Australia. We have the capability and expertise to mobilise to any site in Western Australia at short notice. The diversity of our services provides successful solutions for our resource clients' needs and ensures an innovative and integrated approach to all projects.
